

## Sceptre Announces Availability of Energy Efficient 32-inch LED HDTV

*Elegant brush pattern design and superb performance delivers an enjoyable home entertainment experience*

**City of Industry, Calif – November 6, 2013** – Sceptre, superior manufacturers of world class LED/LCD HDTVs and PC displays, unveils their energy efficient [32-inch LED HDTV](#) designed to provide superb image quality and long term energy savings.

Sceptre's new X322BV-HDR features an ultra slim brush pattern bezel design that perfectly complements the jet black trim and is capable of displaying brighter and more robust colors through a variety of features including a 5,000:1 contrast ratio, 3D Comb Filter and more. The unit also comes equipped with the bells and whistles of more expensive HDTVs, including 5.1 digital audio output capabilities, multiple HDMI and a USB port for easy connectivity and the ability to be wall-mounted or used as a computer monitor.

"We design our HDTVs to meet the evolving consumer needs and the new 32-inch LED HDTV embodies our pursuit of providing quality entertainment products that delivers long term savings," stated Cathy Chou, vice president of operations, Sceptre. "Our newest LED HDTV is one of the most energy efficient in the market but doesn't sacrifice performance or aesthetics."

The X322BV-HDR is Energy Star V6.0 compliant with an estimated energy cost of only \$8.60 a year. In addition, it has a rated lamp life of over 50,000 hours or more than 5 years of nonstop usage, resulting in significant long term energy savings.

The X322BV-HDR is currently available at Walmart, Amazon, NewEgg, Costco, Sears, QVC and Kmart for \$299.99 MSRP.
