

Important Information

WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrow-head symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within a triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

CAUTION: TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

CAUTION:
DO NOT PLACE THIS PRODUCT ON AN UNSTABLE CART, STAND, TRIPOD, BRACKET, OR TABLE. THE PRODUCT MAY FALL CAUSING SERIOUS PERSONAL INJURY AND SERIOUS DAMAGE TO THE PRODUCT. USE ONLY WITH A CART, STAND, TRIPOD, BRACKET, OR TABLE RECOMMENDED BY THE MANUFACTURER OR SOLD WITH THE PRODUCT. FOLLOW THE MANUFACTURER'S INSTRUCTIONS WHEN INSTALLING THE PRODUCT AND USE MOUNTING ACCESSORIES RECOMMENDED BY THE MANUFACTURER. A PRODUCT AND CART COMBINATION SHOULD BE MOVED WITH CARE. QUICK STOPS, EXCESSIVE FORCE, AND UNEVEN SURFACES MAY CAUSE THE PRODUCT AND CART COMBINATION TO OVERTURN.

WARNING: FCC Regulations state that any unauthorized changes or modifications to this equipment not expressly approved by the manufacturer could void the user's authority to operate this equipment.

CAUTION:
This product satisfies FCC regulations when shielded cables and connectors are used to connect the unit to other equipment. To prevent electromagnetic interference with electric appliances such as radios and televisions, use shielded cables and connectors for connections.

This product utilizes tin-lead solder, and fluorescent lamp containing a small amount of mercury. Disposal of these materials may be regulated due to environmental considerations. For disposal or recycling information, please contact your local authorities or the Electronic Industries Alliance: www.eia.org

FCC Compliance Statement

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following conditions:

This device may not cause harmful interference

This device must accept any interference received, including interference that may cause undesired operation.

Please Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Caution: To comply with the limits for an FCC Class B computing device, always use the signal cord and power cord supplied with this unit.

The Federal Communications Commission warns that changes or modifications to the unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

European Notice

**CE mark for Class B ITE (Following European standard EN55022/1998;
EN61000-3-2/1995; EN61000-3-3/1995, EN55024/1998,
EN60950/1992+A1+A2+A3+A4+A11)**

Radio Frequency Interference Statement

Warning:

This is a Class B product. In a domestic environment, this product may cause radio interference in which case the user may be required to take adequate measures.

Canadian Doc Notice

For Class B Computing Devices

This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus as set out in the Radio Interference Regulation of the Canadian Department of Communications.

“Le présent appareil numérique n’émet pas de bruits radioélectriques dépassant les limites applicables aux appareils numériques de la class B prescrites dans le Règlement sur le brouillage radioélectrique édicté par le ministère des Communications du Canada.”

Important Information

Electricity is used to perform many useful functions, but it can also cause personal injuries and property damage if improperly handled. This product has been engineered and manufactured with the highest priority on safety. However, improper use can result in electric shock and / or fire. In order to prevent potential danger, please observe the following instructions when installing, operating and cleaning the product. To ensure your safety and prolong the service life of your Liquid Crystal Display, please read the following precautions carefully before using the product.

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade and the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at the plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Important Information

Dispose unwanted electronics and batteries through an approved recycler.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. Please refer to the last page for further references.

The house icon identifies that this product is for indoor use.

WARNING: This product can expose you to chemicals including lead, which is known to the State of California to cause cancer. For more information, go to www.P65Warnings.ca.gov.

Tips and Safety Precautions

This product is designed and manufactured to operate within defined design limits, and misuse may result in electric shock or fire. To prevent the product from being damaged, the following rules should be observed for the installation, use and maintenance of the product. Read the following safety instructions before operating the display. Keep these instructions in a safe place for future reference.

- To avoid the risk of electric shock or component damage, switch off the power before connecting other components to the E20 LED MONITOR.
- Unplug the power cord before cleaning the E20 LED MONITOR. Do not use a liquid or a spray cleaner for cleaning the product. Do not use abrasive cleaners.
- Always use the accessories recommended by the manufacturer to insure compatibility.
- When moving the E20 LED MONITOR from an area of low temperature to an area of high temperature, condensation may form on the housing. Do not turn on the E20 LED MONITOR immediately after this to avoid causing fire, electric shock or component damage.
- Do not place the E20 LED MONITOR on an unstable cart, stand, or table. If the E20 LED MONITOR falls, it can injure a person and cause serious damage to the appliance. Use only a cart or stand recommended by the manufacturer or sold with the E20 LED MONITOR.
- Any heat source should maintain a distance of at least 5 feet away from the E20 LED MONITOR, i.e. radiator, heater, oven, amplifier etc. Do not install the product too close to anything that produces smoke or moisture. Operating the product close to smoke or moisture may cause fire or electric shock.
- Slots and openings in the back and bottom of the bezel are provided for ventilation. To ensure reliable operation of the E20 LED MONITOR and to protect it from overheating, be sure these openings are not blocked or covered. Do not place the E20 LED MONITOR in a bookcase or cabinet unless proper ventilation is provided.
- It is not recommended to use the E20 LED MONITOR in a portrait format (by rotating 90 degrees) under high temperature environment (25°C or higher), since this would retard heat dissipation and would eventually damage the monitor.
- Never push any object into the ventilation slots of the E20 LED MONITOR. Do not place any objects on the top of the Product. It could short circuit parts causing a fire or electric shock. Never spill liquids on the E20 LED MONITOR.
- The E20 LED MONITOR should be operated only from the type of power source indicated on the label. If you are not sure of the type of power supplied to your home, consult your dealer or local power company.
- The power cable must be replaced when using different voltage from that specified in the User Manual. For more information, contact your dealer.
- The E20 LED MONITOR is equipped with a three-pronged grounded plug, a plug with a third (grounding) pin. This plug will fit only into a grounded power outlet as a safety feature. If your outlet does not accommodate the three-wire plug, have an electrician install the correct outlet, or use an adapter to ground the appliance safely.
- Do not defeat the safety purpose of the grounded plug.
- Do not overload power strips and extension cords. Overloading can result in fire or electric shock.
- The wall socket should be installed near the equipment and should be easily accessible.
- Only the marked power source can be used for the product. Any power source

other than the specified one may cause fire or electric shock.

- Do not touch the power cord during thunderstorms. To avoid electric shock, avoid handling the power cord during electrical storms.
- Unplug the unit during a lightning storm or when it will not be used for a long period of time. This will protect the E20 LED MONITOR from damage due to power surges.
- Do not attempt to repair or service the product yourself. Opening or removing the back cover may expose you to high voltages, the risk of electric shock, and other hazards. If repair is required, please contact your dealer and refer all servicing to qualified service personnel.
- Keep the product away from moisture. Do not expose this appliance to rain or moisture. If water penetrates into the product, unplug the power cord and contact your dealer. Continuous use in this case may result in fire or electric shock.
- Do not use the product if any abnormality occurs. If any smoke or odor becomes apparent, unplug the power cord and contact your dealer immediately. Do not try to repair the product yourself.
- Avoid using dropped or damaged appliances. If the product is dropped and the housing is damaged, the internal components may function abnormally. Unplug the power cord immediately and

contact your dealer for repair. Continued use of the product may cause fire or electric shock.

- Do not install the product in an area with heavy dust or high humidity. Operating the product in environments with heavy dust or high humidity may cause fire or electric shock.
- Hold the power connector when removing the power cable. Pulling the power cable itself may damage the wires inside the cable and cause fire or electric shocks. When the product will not be used for an extended period of time, unplug the power connector.
- To avoid risk of electric shock, do not touch the connector with wet hands.
- If any of the following occurs please contact the dealer:
 - The power connector fails or frays.
 - Liquid sprays or any object drops into the E20 LED MONITOR.
 - The Display is exposed to rain or other moisture.
 - The Display is dropped or damaged in any way.
 - The performance of the Display changes substantially.
- Operating environment: Temperature: 5°C ~ 35°C, Humidity: 10% to 90% non-condensing, Altitude: 0~10,000 ft.

Dear SCEPTRE Customer,

Congratulations on your new SCEPTRE **E20** LED monitor purchase. Thank you for your support. To ensure safety and many years of trouble free operation of your LED monitor, please read the manual carefully before making any adjustments, and keep them in a safe place for future reference. We hope you enjoy your new SCEPTRE monitor.

For technical assistance, please call 1800-788-2878 and select option 3 or email our tech support group at SceptreTS@SCEPTRE.com.

For all other inquiries, please call 1800-788-2878 and select option 4 or email our customer service group at SceptreCS@SCEPTRE.com.

Live Chat also available during business hours M-F 8:30AM-5:30PM.

We recommend you register your SCEPTRE monitor by going to our website <http://sceptre.com/registration.html>.

Opening the Package

The SCEPTRE E20 LED monitor is packaged in a carton together with standard accessories. Since the LED panel can be easily scratched or broken, please handle the product gently. Never place the unit on a surface with the glass facing downwards unless it is on a protective padding. When opening the carton, make sure the product is in good condition and that all the standard accessories and items are included. After unpacking your LED monitor, be sure to save the original box and all packing materials for future shipping needs.

Package Contents

- Monitor Display x 1
- Monitor Base x 1
- User Manual x 1
- Power Cord x 1
- VGA Cable x 1

Installing or Uninstalling the Base

1. Please place the base on a flat surface (i.e. table). Hold the monitor directly 90 degrees above the base. Connect the monitor to the base by inserting the monitor into the base. To remove the base simply look at the bottom of the base and unlock the two buckles at the bottom of the base.

Setting Up Your Monitor

The following are general short steps to setup and use the monitor with your PC under the **Windows 7 operating system**.

1. After you have installed the base, connect your VGA or HDMI cord to both the monitor and PC and turn on the PC and the monitor.
2. Under Windows, use your mouse to right click on the wallpaper and select the RESOLUTION option.
3. Change your resolution to 1600x900 and click on APPLY.

For **Microsoft Windows 10**

1. After you have installed the base, connect your VGA or HDMI cord to both the monitor and PC and turn on the PC and the monitor.
2. Under Windows, use your mouse to select Desktop.
3. Once you're on the desktop, right-click on the wallpaper and select the RESOLUTION option.
4. Change your resolution to 1600x900 and click on APPLY.

Mounting Preparations

1. Place the monitor on a flat surface with cloth so the bezel does not get scratched. Look at the base where the two buckles are located. Pull / expand them outwards while pulling on the base and it will come off.

2. The monitor is ready for mounting. Unfortunately **you cannot remove the neck piece**.

Please note: The mounting pattern of the monitor is 100mm x 100mm using M4 metric system screws. The screw depth of the mounting pattern should not exceed 7mm. The 4 screws removed are for securing the monitor stand only. If you are mounting the monitor please consult a qualified installer for further instructions on bracket support and wall support.

Identifying Front and Rear Panel

Front View

MENU – Menu button brings up the on screen menu. When the on screen menu is being displayed the menu button functions as ENTER.

DOWN – The down button navigates the selection on the on screen menu downwards. When an option is being adjusted, the down button decreases the adjustment. This button is also the hotkey for volume down.

UP – The up button navigates the selection on the on screen menu upwards. When an option is being adjusted, the up button increases the adjustment. This button is also the hotkey for volume up.

EXIT – The exit button exits either the on screen menu or your current selected option.

⏻ - The power button turns the monitor on or off.

Connections

HDMI – HDMI stands for High Definition Multimedia Interface. This connection is for A/V devices such as Blu-ray player, DVD player or game consoles such as Playstation®3.

VGA – VGA stands for Video Graphics Array. This connection is for computers to send video signals to the monitor by an analog signal. This method of connection is the most commonly used connection.

AUDIO IN – This connection is for audio out from the PC to connect to the monitor.

POWER – This plug is responsible for providing power to the monitor.

Understanding Your Cables & Connections

Cable Name	Cable Picture	Corresponding Connection Picture
VGA (analog video)		
3.5 mm Mini-jack		
HDMI		

*The cables above do not represent the package's actual content.

Connecting the LCD

If You have VGA Connection on Your Video Card...

1. Make sure the power of E20 LED MONITOR is turned off.
2. **If you were previously using a CRT (bulky) monitor**, please hook up your old monitor first and make sure your refresh rate is set to 60 Hz frequency before using the E20 LED MONITOR. You can find the refresh rate information and change it by RIGHT CLICKING on the desktop with nothing selected. After you have right clicked, select the PROPERTIES option. Click on the SETTINGS tab. Click on the ADVANCED button. Click on the MONITOR tab. In that tab, change the refresh rate to 60 Hz and click on APPLY. After the refresh rate changed, please shut down the computer and monitor.
3. Obtain the VGA cable and connect to the VGA connection on your PC. Connect the other end of the cable to your E20 LED MONITOR.
4. Turn on the power of both the E20 LED MONITOR and the PC.

Please Note:

- The PC's clearest picture is ran with 1600x900 at 60 Hz.

If You have HDMI Connection on Your Cable or Satellite Box...

1. Make sure the power of the E20 LED MONITOR is turned off.
2. Obtain a HDMI cable and connect one end to the back of the monitor and the other end to the back of the cable or satellite box.
3. Turn on the power of both the E20 LED MONITOR and the cable or satellite box.

Please Note:

- Make sure to set audio output from your cable or satellite box to PCM output.
- Please refer to the cable or satellite company for more information.

On Screen Display (OSD) Menu

The OSD menu of the monitor provides various adjustments for the monitor such as color, brightness, and contrastetc.

When you press the  button on the monitor, the OSD screen will appear. Select each of the functions with the ▲ or ▼ buttons. Use the  button again to enter each of the function or when you're in the function already, use the  button to select the option you want to adjust. Use the ▲ or ▼ buttons to adjust each option's values. When you want to exit press the  button.

QUICK START

Quick Start offers users a variety of often adjusted options for users.

 Quick Start	
Backlight	80
Brightness	50
Contrast	50
Preset	User
Aspect Ratio	Full
Source	HDMI
Blue Light Shift	Off

1. **BACKLIGHT** - This option adjusts the intensity of the LED diode directly.
2. **BRIGHTNESS** – This option adjusts the brightness of the monitor.
3. **CONTRAST**- This option adjusts the contrast of the monitor.
4. **PRESET** – This option lets the user select different preset display modes of the monitor.
Only USER mode will allow the user to adjust options freely.
 - a. **STANDARD** – This display mode is for regular users.
 - b. **USER** – This display mode allows you to adjust contrast and brightness manually.
 - c. **MOVIE** – This display mode is for playing movies.
 - d. **ECO** – This display mode is for power saving.
 - e. **FPS** – This display mode is for playing first person shooter games.
 - f. **RTS** – This display mode is for playing real time strategy games.
5. **ASPECT RATIO** – This option lets the user adjust the aspect ratio of the monitor.
 - a. **FULL** – This option automatically stretches any picture to the full screen regardless of picture proportion.
 - b. **4:3** – This option forces any resolution to a 4:3 square format.
6. **SOURCE** – This option lets the user manually switch an input or auto where the monitor detects a signal and changes the source automatically.
7. **BLUE LIGHT SHIFT** – This display mode filters out blue light for users who want blue light protection.

PICTURE

 Picture	
Backlight	80
Brightness	50
Contrast	50
Preset	User
DCR	Off
Aspect Ratio	Full
Sharpness	50
VGA Settings	
Auto Adjust	
Auto Color	
H Position	50
V Position	50
Clock	50
Phase	50

1. **BACKLIGHT** - This option adjusts the intensity of the LED diode directly.
2. **BRIGHTNESS** - This option adjusts the brightness of the monitor.
3. **CONTRAST** - This option adjusts the contrast of the monitor.
4. **PRESET** - This option lets the user select different preset display modes of the monitor. **Only USER mode will allow the user to adjust options freely.**
 - a. **STANDARD** - This display mode is for regular users.
 - b. **USER** - This display mode allows you to adjust contrast and brightness manually.
 - c. **MOVIE** - This display mode is for playing movies.
 - d. **ECO** - This display mode is for power saving.
 - e. **FPS** - This display mode is for playing first person shooter games.
 - f. **RTS** - This display mode is for playing real time strategy games.
5. **DCR** - This option turns on or off the dynamic contrast option of the monitor. Dynamic Contrast automatically adjusts the contrast of the monitor based off the video signal provided.
6. **ASPECT RATIO** - This option lets the user adjust the aspect ratio of the monitor.
 - a. **FULL** - This option automatically stretches any picture to the full screen regardless of picture proportion.
 - b. **4:3** - This option forces any resolution to a 4:3 square format.
7. **SHARPNESS** - This option adjusts the sharpness of graphics and text for this monitor.

8. **VGA Settings** – This setting allows users to adjust the image quality of the monitor.
- a. **AUTO ADJUST** – This option auto adjusts the picture for optimal performance while under VGA connection.
 - b. **AUTO COLOR** – This option auto adjusts the color balance for the picture to maximize display performance while under VGA connection.
 - c. **H. POSITION** – This option adjusts the horizontal position of the image.
 - d. **V. POSITION** – This option adjusts the vertical position of the image.
 - e. **CLOCK** – This option adjusts the picture clarity by large increments.
 - f. **PHASE** – This option adjusts the picture clarity by small increments.

COLOR

 Color	
Temperature	User
Red	50
Green	50

Advanced Settings	
Red	50
Green	50
Blue	50
Cyan	50
Magenta	50
Yellow	50
Gamma	2.0
Tint	50
Saturation	50
Blue Light Shift	Off

1. **TEMPERATURE** – This option let users select different color temperatures of the monitor.
 - a. **NORMAL** – This color temperature is for users who prefer a neutral white balance.
 - b. **COOL** – This color temperature is for users who prefer a cool white balance.
 - c. **USER** – This color temperature is for users who would like to adjust the RGB (red, green, blue) values manually.
 - i. **ADVANCED SETTINGS** – This setting adjusts finer values besides RGB going into cyan, magenta, and yellow.
 - d. **WARM** – This color temperature is for users who prefer a warm white balance.
2. **GAMMA** – This option adjusts the gamma curve value of the monitor.
3. **TINT** – This option adjusts the tint of the entire monitor.
4. **SATURATION** – This option adjusts the color saturation of the entire monitor.
5. **BLUE LIGHT SHIFT** – This display mode filters out blue light for users who want blue light protection.

SYSTEM

 System	
Overdrive	On
Sleep Mode	Off
Language	English
OSD H Position	100
OSD Timer	15
OSD Transparency	0
Volume	50
Reset	

- 1. **OVERDRIVE** – This option increases the pixel response time of the LCD screen.
- 2. **SLEEP MODE** – With the monitor given no video signal, enabling this option will make the monitor automatically shut off after 30 minutes, 60 minutes, or 2 hours.
- 3. **LANGUAGE** – This option allows users to change the menu language of the monitor.
- 4. **OSD H POSITION** – This option adjusts the placement of the OSD menu horizontally.
- 5. **OSD TIMER** – This option adjusts the time it takes for the OSD menu to automatically shut off.
- 6. **OSD TRANSPARENCY** – This option adjusts the opacity of the OSD menu.
- 7. **VOLUME** – This option allows users to change the output level of the audio out port.
- 8. **RESET** – This option resets all values of the menu back to factory default.

Supported PC Resolution

RESOLUTION & REFRESH RATE
1600 x 900 @ 75, 60Hz
1440 x 900 @ 60Hz
1280 x 1024 @ 60Hz

480p
720p
1080i
1080p (scaled)

*Once a mode is optimized, there is no need to make any further adjustment as long as the VGA card remains unchanged. **Specifications are subject to change without notice.

Troubleshooting

Problem	Possible solutions
DISPLAY IS UNCLEAR AND UNSTABLE	<p>If you are using VGA: To stabilize and clarify your display, use the AUTO ADJUST function or change the resolution to the display's optimal setting 1600x900 at 60Hz, then AUTO ADJUST.</p> <p>If you are using HDMI: Make sure your resolution is set to 1600x900. Any other resolution will be slightly blurrier.</p>
THERE IS NO LED DISPLAY or SCREEN SAYS NO VIDEO or NO SIGNAL	<p>Check your video cable. It might be corrupt. Swap out the video cable for another one to see if the monitor will work. Check your power plug. See if it is fully plugged in on both the monitor and the wall. Check your computer. See if it is turned on.</p>
MONITOR SAYS "SIGNAL OUT OF RANGE"	<p>If you have a CRT monitor, please connect the CRT monitor to the computer and change the refresh rate down to 60 Hz via your video card's display settings menu. After the setting of 60 Hz has been change you can then use the LED on the computer.</p> <ol style="list-style-type: none"> 1. To change the setting go to display settings by right clicking on your desktop with nothing selected. Choose the PROPERTIES option. 2. Click on the SETTINGS tab, verify the resolution is NOT higher than 1600x900, and click on the ADVANCED button. 3. Click on the MONITOR tab and change the refresh rate to 60 Hz. 4. Click on OK 2-3 times to finalize your change. <p>If you do NOT have a CRT monitor or it's already broken, please make sure both the E20 LED monitor and your computer is turned off.</p> <ol style="list-style-type: none"> 1. Turn on the LED monitor and the computer. 2. While the computer is turned on, press the "F8" key on your keyboard continuously until a selection menu appears and select the "Safe Mode" option. 3. When you've entered Safe Mode please uninstall any video card driver and monitor driver by using either the "Add / Remove Programs" icon or going into "System 4. Properties" and manually removing anything under "Monitors" and "Display Adapters". After removing all the drivers, please reboot your computer and you should be able to see windows. Please install your monitor driver first, then your video card driver. Please remember to make sure your refresh rate should be at 60Hz.
I CAN'T OPEN THE OSD	<p>You need to have a valid video signal going through the monitor before you can turn on the OSD.</p>

Problem	Possible solutions
---------	--------------------

I CANNOT GET THE RESOLUTION 1600x900	<p>If you are using HDMI, please try out VGA to see if you are able to achieve that resolution. Sometimes your video card will not read the monitor correctly and will not allow you to achieve the resolution you want. Rebooting your computer will solve the situation.</p> <p>You can also make sure your video card's video drivers are up to date. You can find what video card you have by clicking on START then RUN. Type in "DXDIAG". When the diagnostic window pops up, click on the DISPLAY tab. The program will tell you what video chipset you have. Copy that name then search it with an online search engine like GOOGLE™. Find your video card company's web address and search for newer drivers. If updating your drivers does not work, you probably have one of the older video cards and cannot achieve a widescreen resolution. You'll need to upgrade your video card to a newer one.</p>
I DO NOT HEAR ANY SOUND FROM THE SPEAKERS	Check your 3.5 mm mini-jack cable and see if it is connected correctly between the computer and the monitor. Check the volume of your computer and also the volume of the monitor.
THE VIDEO IS TOO BRIGHT NO MATTER WHAT I ADJUST	Sometimes having older video cards this type of problem might happen due to newer LEDs having to provide HD video capability and not being fully compatible with older video cards. You can try adjusting the contrast to a lower value and adjust the brightness to compensate.
THE WORDS AND VIDEO ARE TOO BLURRY	<p>Are you using the monitor's native resolution? If not you'll need to switch resolution to the native 1600x900 at 60 Hz to make the words clearer. If you're using VGA please do not forget to AUTO ADJUST.</p> <p>If the words are still blurry, please try enabling or disabling CLEAR TYPE function from windows.</p>
THE COLORS ARE NOT CORRECT	Sometimes the colors are not correct because your VGA or HDMI cable is loose or corrupt. Please try reconnecting your cable or swap out your current cable to see if the problem persists.
HOW DO I RESET THE MONITOR	Make sure there is a valid video signal to the monitor and press menu to open the OSD. Look for RESET under the RESET option.

Problem	Possible solutions
THE WORDS ARE TOO SMALL AT 1600x900	<p>At the native resolution of 1600x900, some people might feel that the words are too small to read. You can change the size of the words in Windows Operating System via its display properties.</p> <p>For Windows XP</p> <ol style="list-style-type: none"> 1. Right click on the background with nothing selected. Left click on the PROPERTIES option. 2. Click on the SETTINGS tab. 3. Under SETTINGS, click on the ADVANCED button. 4. Under GENERAL tab, change the size of the words by selecting the option NORMAL SIZE and change it to LARGE SIZE. 5. Click on OK on all windows to exit. 6. Once you have finished rebooting, the computer is ready for use. <p>For Windows 7-10</p> <ol style="list-style-type: none"> 1. Right click on the Wallpaper. Left click on the PERSONALIZE option. 2. Click on ADJUST FONT SIZE (DPI) option on the left column and 3. Click on CONTINUE. 4. In there you can change the size of the words by changing from the option DEFAULT SCALE to LARGE SCALE. 5. Click on APPLY to finalize your selection. 6. Once you have finished rebooting, the computer is ready for use.
I DO NOT HEAR ANY SOUND FROM THE SPEAKERS WHEN USING THE HDMI PORT	The monitor only decodes PCM sound signals. Make sure your video device's audio output is through HDMI and is outputting PCM sound format.
I CAN'T GET TO THE IMAGE OPTION UNDER THE OSD	Make sure you are using a VGA video connection. If you have HDMI, that option will be disabled because it only adjusts analog signals.
AUTO ADJUST IS GRAYED OUT	Make sure you are using a VGA video connection. If you have HDMI, that option will be disabled because it only adjusts analog signals.

How do I clean the LED Monitor?

IMPORTANT

1. The power cable has to be removed from the socket before cleaning the TV.
2. Do not use volatile solvent (alcohol, rosin, and toluene) to clean the TV. These types of chemicals might damage the housing and the LCD glass.

Cleaning the bezel

1. Use a 100% cotton cloth or micro-fiber cloth for cleaning.
2. If the bezel is dirty to the point where you cannot simply dry wipe it, please lightly dampen the wiping material with clean water and wipe again. Wipe the display with a dry micro-fiber cloth or 100% cotton cloth afterwards.

Please Note:

- Make sure you wring the water out of the cloth before cleaning the bezel in order to prevent water from penetrating into the electronics.

Cleaning the Screen

1. Use a 100% cotton cloth or micro-fiber cloth for cleaning.
2. The LCD screen glass is extremely fragile. Do not scrape it with any material. Do not press or tap the screen to avoid cracking. When the screen is dirty to the point where you cannot simply dry wipe it, please lightly dampen the wiping material with clean water and wipe again. Wipe the display with a dry micro-fiber cloth or 100% cotton cloth afterwards.

Specification

Display panel	
Active Area / Screen Size	Diagonal 19.5" inches
Aspect Ratio	Widescreen 16 : 9
Resolution	Native: 1600x900

Call Us If You Need Help!

Products are often returned due to a technical problem rather than a defective product that may result in unnecessary shipping charges billed to you. Our trained support personnel can often resolve the problem over the phone or email. For more information on warranty services or repairs after the warranty period, please contact our support department at the number below.

For technical help, contact our SCEPTRE Technical Support Group via email or phone. **Please have your SCEPTRE Product Number (P/N), Serial Number (S/N), and date of purchase available before you call.**

LIMITED PRODUCT WARRANTY

Please read this warranty card carefully, it is a “ONE-YEAR LIMITED WARRANTY” on parts and labor and is only valid when purchased from an Authorized Reseller, only on new and non-refurbished product, and available to customers in the Continental US, Alaska, Hawaii and Puerto Rico. See below for the SCEPTRE Extended Service warranty.

SCEPTRE's Responsibility

SCEPTRE Displays purchased in the United States are warranted to be free from defects in materials or workmanship for a period of one (1) year from the date of their original retail purchase. If the unit fails to conform to this warranty, we will service the monitor using new or refurbished parts.

Service Labor

During a period of one (1) year from the effective warranty date, SCEPTRE will provide, when needed, service labor to repair a manufacturing defect at SCEPTRE's own Service Center. To obtain warranty service in the United States, you must first call our Customer Support at (800) 788-2878. The determination of service will be made by SCEPTRE Customer Support. PLEASE DO NOT RETURN YOUR UNIT TO SCEPTRE WITHOUT PRIOR AUTHORIZATION.

Parts

New or remanufactured replacements for defective parts will be used for repairs by SCEPTRE at its designated Service Center for one (1) year from the effective warranty date. Such replacement parts are warranted for the remaining portion of the original warranty period.

Service

During the one (1) year warranty period, SCEPTRE will, at its option and sole discretion, repair or replace defective parts, including replacement of the entire Panel. The Customer will be required to ship the unit to the Service Center indicated at the time Customer Support is contacted to make the necessary repairs, you are responsible for all transportation charges to the service facility. SCEPTRE is NOT responsible for the de-installation or re-installation of the unit.

Packaging and Shipping Instruction

When you send the product to an authorized SCEPTRE service facility you must use the original carton box and packing material or an equivalent as designated by SCEPTRE.

Not Covered

This warranty does not cover defects, malfunctions or failures resulting from shipping or transit accidents, abuse, misuse, operation contrary to furnished instructions, operation on incorrect power supplies, operation with faulty associated equipment, modification, alteration, improper servicing, tampering or normal wear and tear or TVs on which the serial number has been removed or defaced. Image Sticking caused by operating at excessive brightness levels for extended periods or mishandling are not covered by this warranty.

ANY IMPLIED WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF

MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE SHALL BE LIMITED IN DURATION TO THE PERIOD OF TIME SET FORTH ABOVE. OUR LIABILITY FOR ANY AND ALL LOSSES AND DAMAGES RESULTING FROM ANY CAUSE WHATSOEVER, INCLUDING OUR

NEGLIGENCE, ALLEGED DAMAGE OR DEFECTIVE GOODS, WHETHER SUCH DEFECTS ARE DISCOVERABLE OR LATENT, SHALL IN NO EVENT EXCEED THE PURCHASE PRICE OF THE DISPLAY. WE SHALL NOT BE RESPONSIBLE FOR LOSS OF USE, COMMERCIAL LOSS OR OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES. SOME STATES DO NOT ALLOW

LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS OR EXCLUSIONS MAY NOT APPLY TO YOU. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. This is the only warranty applicable; no one is authorized to extend or modify it or to grant any other warranty.

SCEPTRE retains the right to assess all warranty claims and to determine if damages are covered by the warranty. In case of a claim that is not covered by the warranty, you will be contacted to determine whether SCEPTRE should repair the damage for a fee or whether the product should be returned to you as received by the repair center.

Dead Pixel Policy

There are millions of pixels on a LCD screen. Therefore, there is industry standard specification regarding dead or bad pixels. SCEPTRE sets limit on the LCD at 3 dead pixels in a cluster adjacent to each other, 5 dead pixels of the same brightness and color. Any number of dead or bad pixels under the limit is considered normal specification.

Owner's Responsibility

Effective Warranty Date

Warranty begins on the date of sale to the end user. To ensure warranty service, keep the dated bill or sale receipt as evidence of the purchase date.

Warranty Service

For warranty service information, contact SCEPTRE Customer Support at (800) 788-2878, 8:30 am to 5:30 pm PST or visit www.SCEPTRE.com. Parts and service labor that are SCEPTRE's responsibility (see above) will be provided without charge. Other service is at the owner's expense. You must provide the model, serial number and date of purchase. Before you ask for warranty service, read your User Manual. You might avoid a service call.

Warranty conditions are subject to change, for latest Warranty Terms and Conditions and additional information regarding your warranty, please see complete details online at www.SCEPTRE.com.
